AADC Integrated Management System (IMS) Policy Statement

Al Ain Distribution Company’s policy is to distribute reliable and safe water and electricity for the community of Al Ain and the Eastern region of Abu Dhabi Emirate.

AADC is committed to:

- Take all measurements to continually improve the quality of the services to ensure that the water and electricity provided are reliable, and safe for all community members with no adverse environmental impact to meet all legislative commitments.

- Establish Quality, Occupational Health & Safety, Asset Management and Environmental Management System Objectives at relevant levels and function within the organization, and periodically evaluate performance against established objectives.

- Provide a framework for setting objectives and principles to efficiently manage our asset portfolio and asset management system (AMS), and produce asset management strategies, objectives, performance targets and plans consistent with AADCs strategic plan and business priorities; including Asset Management practices and decisions that are driven by the needs of community & stakeholders, as well as ensure the asset management system is integrate with and complement other relevant AADC management systems for Asset Management.

- Prevent injuries and ill health of the employees, contractors and public at large. Prevent environmental pollutants caused by company’s services and operations by reducing emissions, effluents/discharges and waste. Furthermore to improve the efficient use of natural resources and energy.

- Implement an integrated Management System (Quality Management System, Occupational Health and Safety Management System, Asset Management System and Environmental Management System). Systematic audit work practices are used to identify potential HSE hazards with the commitment of preventing injury and sickness.

- Compliance to all statutory and regulatory requirements applicable to AADC activities.

This policy has an equal status with the primary business objectives to contribute to the overall efficiency and success of the company. And it will be Communicated and made available for interested parties.
