- Consultant is required to submit to AADC, Asset Management Directorate soft copy (CD) of <u>AS-Built-Drawings</u> as per GIS requirements and specifications showing all details and selected locations of ducts by AADC for the concerned area.
- Only Consultant or Client is allowed to submit the application and discuss any technical issues related to the application.
- If you encounter any existing water asset and/or ancillary installations during the execution of work, and their protection is essentially required as per ADWEA standards, in such cases, please contact the Asset Management Directorate, AADC.
- In case that the existing pipelines are passing in the proposed road/parking you are requested to perform the necessary formalities for their diversion/protection, in coordination with Asset Management Directorate, AADC.
